

BusiLens+

From Dashboards to Dialogue — Powered by AI

BusiLens+ is the next generation of our decision intelligence platform — built to transform how business leaders interact with data. It doesn't just display numbers; it *explains* them. With AI at its core, BusiLens+ integrates advanced storytelling and a conversational assistant directly into your dashboard, giving management teams not just visibility, but *real understanding*.

Why BusiLens+

Decision-making becomes **proactive** instead of reactive. Finance, Risk, Treasury, and Operations teams gain an AI companion that not only reports what happened — but explains **why** it happened, and **what to do next**.

Transform raw data into strategic action with intelligent insights that adapt to your business context and priorities.

Key Features

Multi-Platform Accessibility

Access insights anywhere, anytime across all devices

Conversational Insights

Ask questions, get contextual answers instantly

Automated Storytelling

AI-driven narratives that explain data trends

Data Security & Privacy

Enterprise-grade protection for every deployment with bank-level encryption

Role-Based User Access

Tailored visibility for executives, analysts, and operational teams

Smarter Dashboards

Customizable interfaces built around your business metrics

Robust Architecture

Scalable infrastructure ready for enterprise growth

Key Benefits

Executive Clarity

Move from numbers to narratives with AI-powered explanations

Time Savings

Automate analysis and focus on strategic action

Contextual Understanding

See insights aligned with business priorities

Future-Ready Design

Evolve with your organization's data needs

Industries We Serve

Banking & Financial Services

Real-time risk monitoring, regulatory compliance, and portfolio analytics for financial institutions

Asset Management

Portfolio performance tracking, market insights, and investment decision support

Corporate Enterprises

Cross-functional analytics for finance, operations, and strategic planning teams

Insurance

Claims analytics, underwriting insights, and actuarial reporting powered by AI

Department Solutions

BusiLens+ delivers specialized capabilities tailored to each department's unique analytical needs:

Risk Management	Real-time monitoring, compliance automation, and regulatory reporting
Finance	P&L insights, balance sheet analytics, variance analysis, and cost optimization
Treasury	Liquidity management, FX exposure tracking, cash flow forecasting, and investment analytics
Business Operations	KPI tracking, workflow performance monitoring, process efficiency metrics, and operational intelligence

Deployment Models

On-Premise Private Network

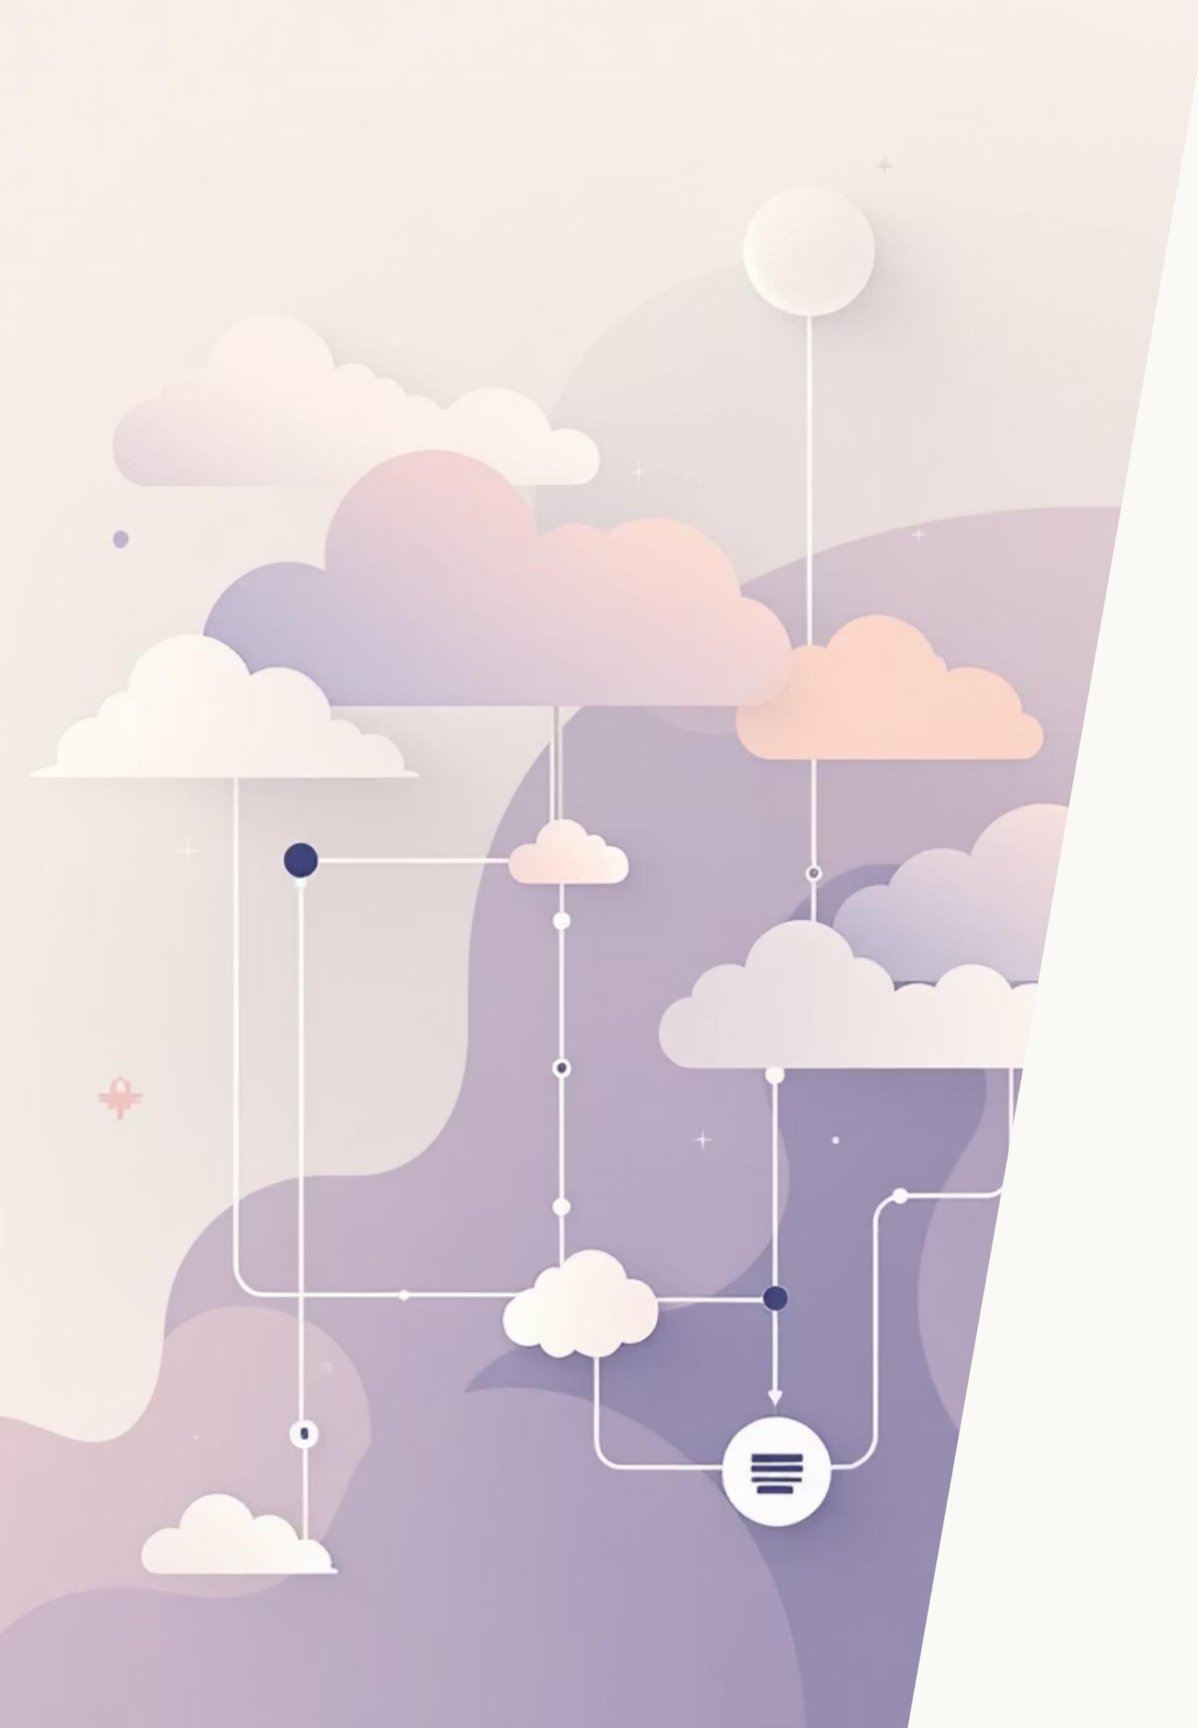

Maximum control and enterprise-grade security for highly regulated environments

- Complete data sovereignty
- Custom security protocols
- Air-gapped deployment options
- Dedicated infrastructure

Hybrid Deployments

Flexible configurations combining cloud and on-premise capabilities

- Optimized cost structure
- Scalable computing resources
- Regulatory compliance maintained
- Seamless integration

An abstract illustration on the left side of the slide. It features a background of soft, pastel-colored clouds in shades of pink, orange, and purple. Overlaid on these clouds is a network of white lines and nodes. Some nodes are solid circles, while others are open circles. The lines connect various points, suggesting a data flow or network architecture. At the bottom, there is a circular icon containing three horizontal lines, resembling a menu or list symbol.

Architecture Highlights

01

Scalable, Modular Design

Built to grow with your organization — from departmental rollouts to enterprise-wide deployments

02

Integration-Ready APIs

Seamlessly connect to existing ERP, CRM, and data warehouse systems with RESTful APIs and webhooks

03

Low-Latency Analytics

Optimized query engine delivers sub-second response times for complex analytical workloads

Enterprise-Grade Performance: BusiLens+ architecture is designed for reliability, supporting thousands of concurrent users with 99.9% uptime SLA.

About BusiLens AI

BusiLens AI delivers AI-powered decision intelligence — turning data into dialogue. We empower enterprises to make faster, smarter, and more informed decisions through conversational analytics and automated insights.

Headquartered in **Bengaluru, India**, with a presence in **Doha, Qatar**, we serve financial institutions and enterprises globally.
